1. Introduction

Customer Dashboard allows the Relationship Manager to view client details, portfolio details, performance details etc. For a Relationship Manager it becomes very important to have all the customer related information to be collated in one place and readily available for consumption in order to have an effective engagement with the customer. This document will detail out the information that will be readily available for the RM and it will also elaborate on all the actions that can be performed on the customer related data.

Upon clicking the 'My Customers' icon, RM will be able to see the list of all the customers that are mapped to them. Customer information is displayed in a card pattern in the system. Every customer will have a corresponding card on the screen. Upon clicking any customer card, the system will take the RM to the Customer dashboard where RM will have access to detailed information of the customer, their portfolio and the portfolio performance as well. This document describes in detail all the activity and action that RM can perform on the Customer Dashboard.

2. Prerequisites

S No	Process	Reference Document
1	Customer, Prospect and Lead Onboarding	Journey of lead to prospect and prospect to customer

3. Flow Diagram

Not Applicable

4. Process Description

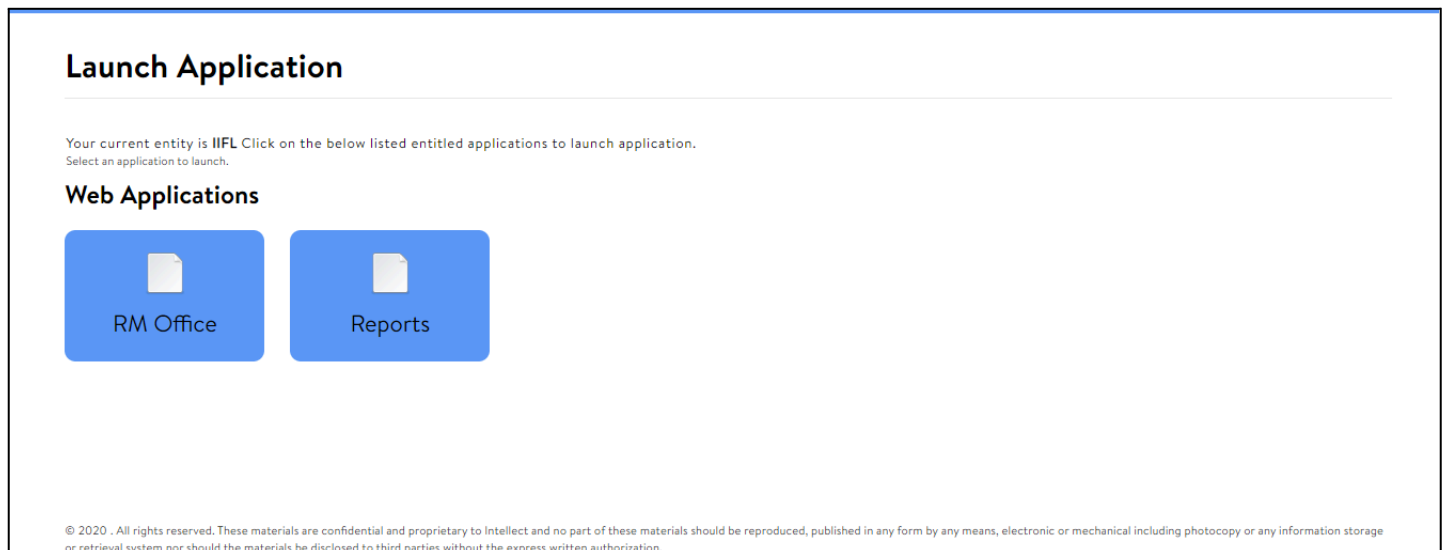

4.1. Login

- 1 The User enters their credentials and logs into the application

Screen: Launch the application

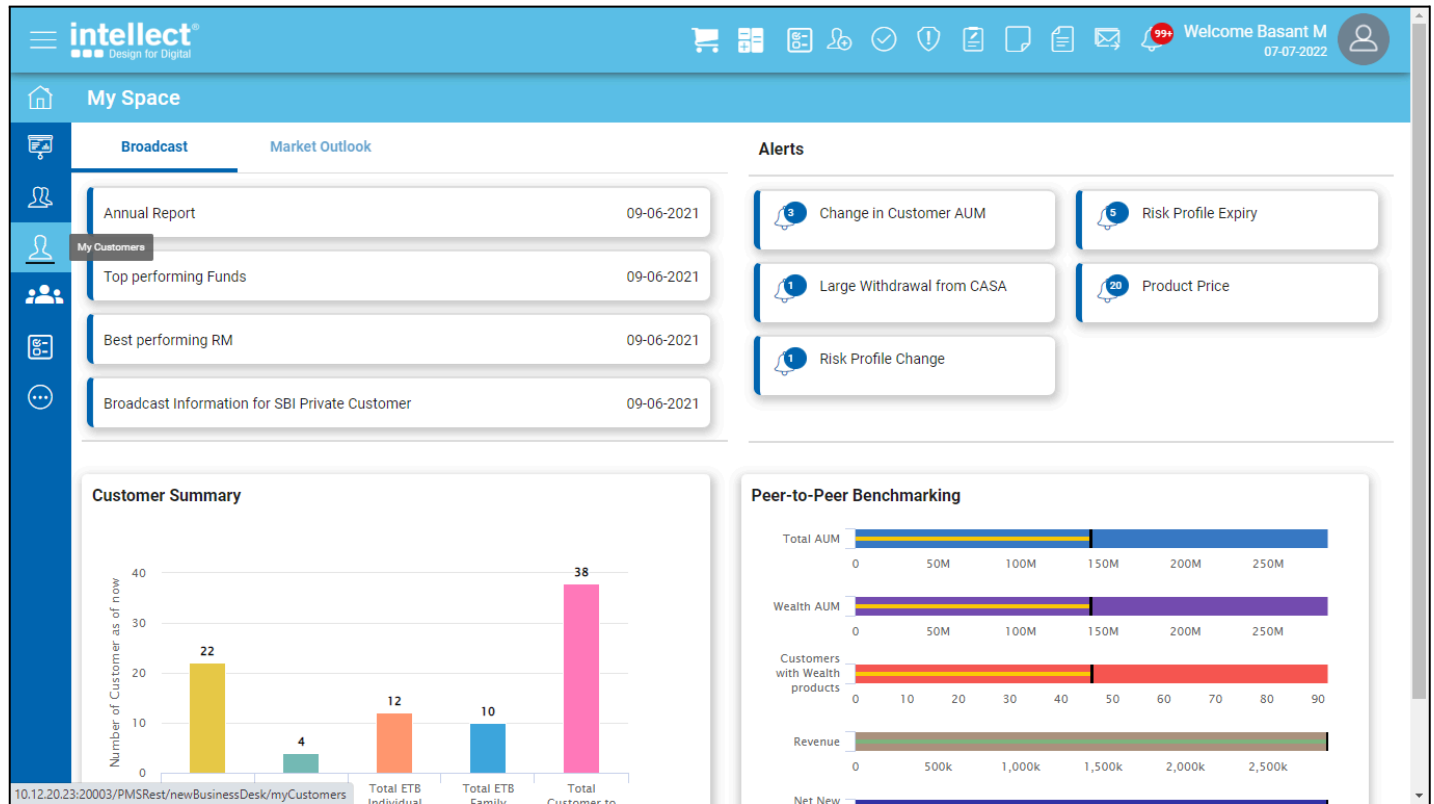

- 2 Once logged in, the User clicks on “RM Office” to launch the PMS application

Screen: Select RM Office

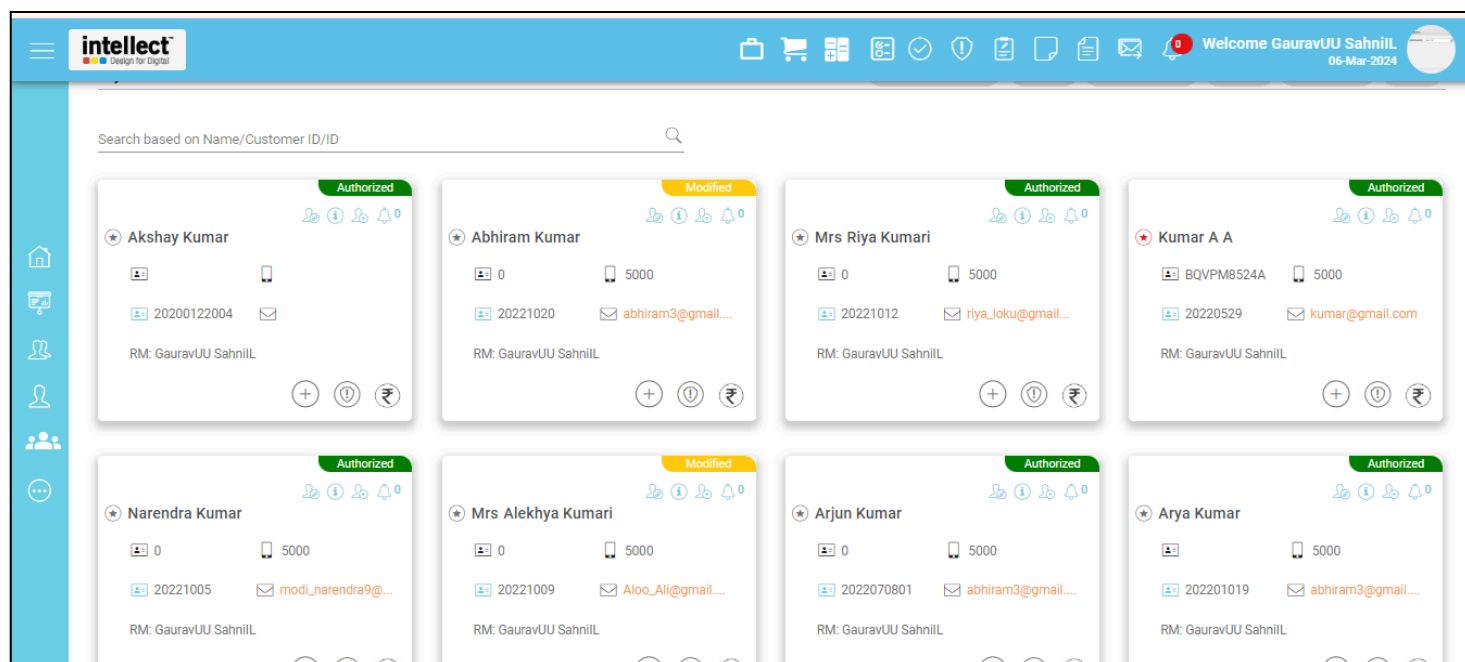

4.2. Navigation

1. The User clicks on the “My Customers” widget on the left panel to navigate to the My Customers screen

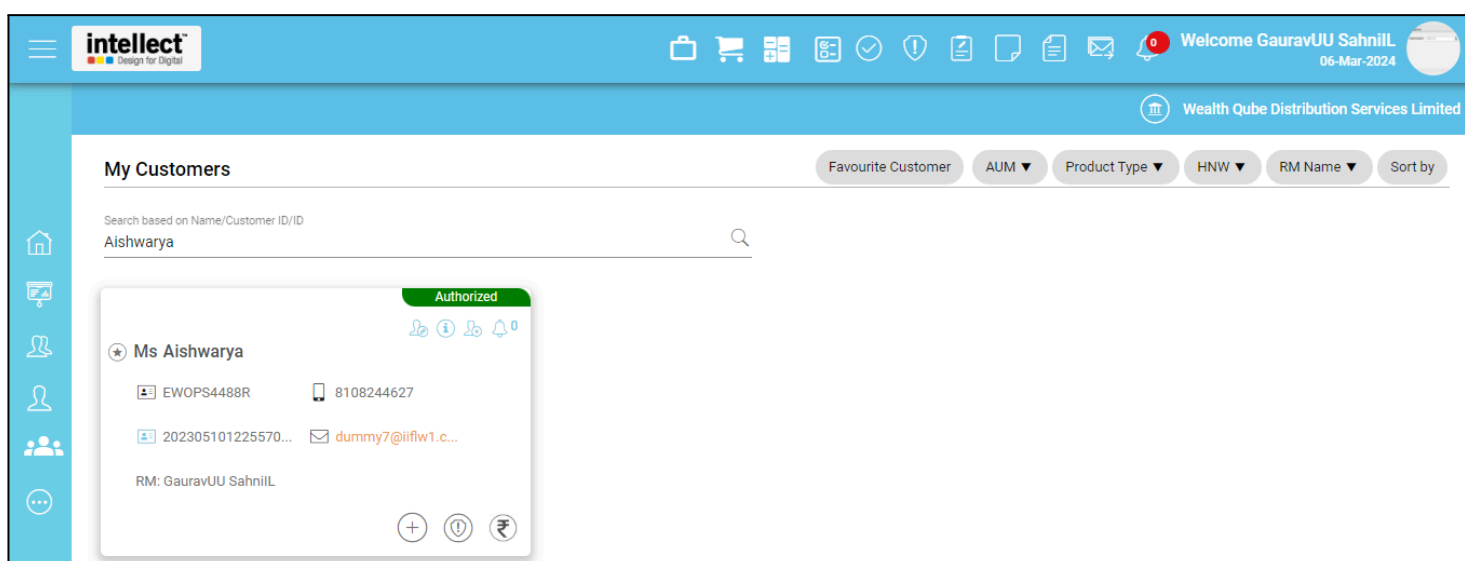

Screen: Click on My Customers

2. On the My Customers screen, the User can view the customer cards for all the customers mapped to them

Screen: View All Customers

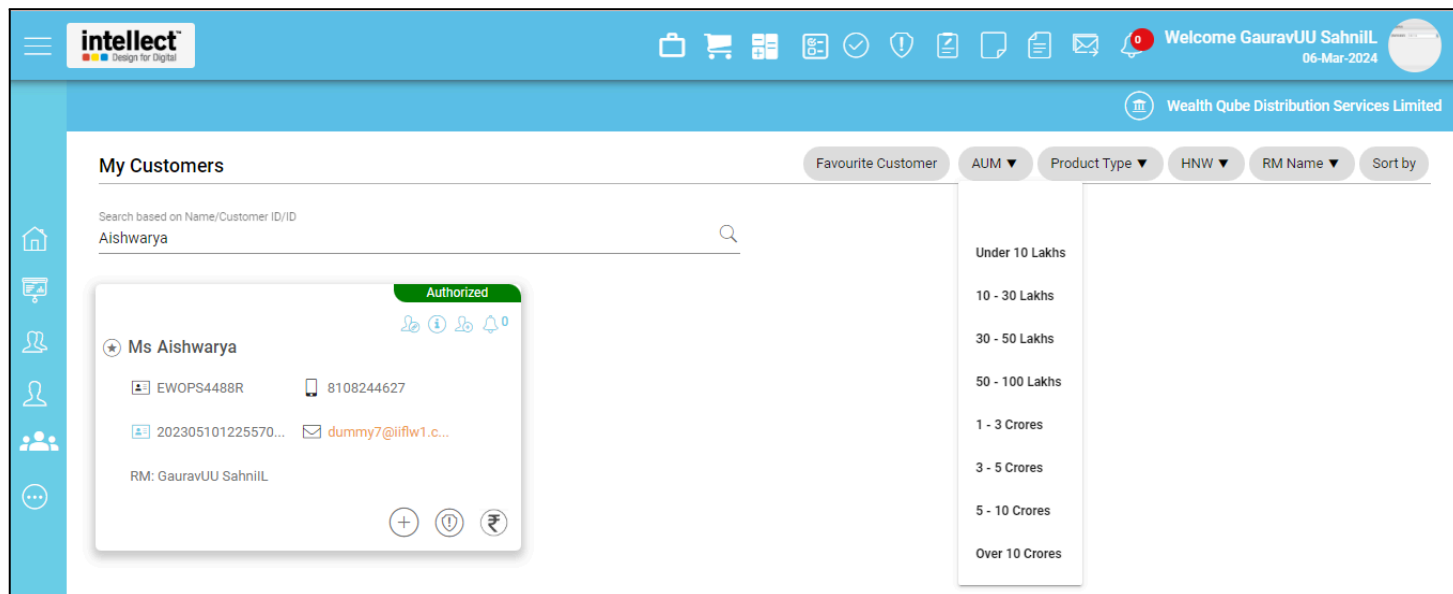

3. User can search for specific customers by using the search bar using the partial name or Customer No or ID number of the customer

Screen: Click on My Customers

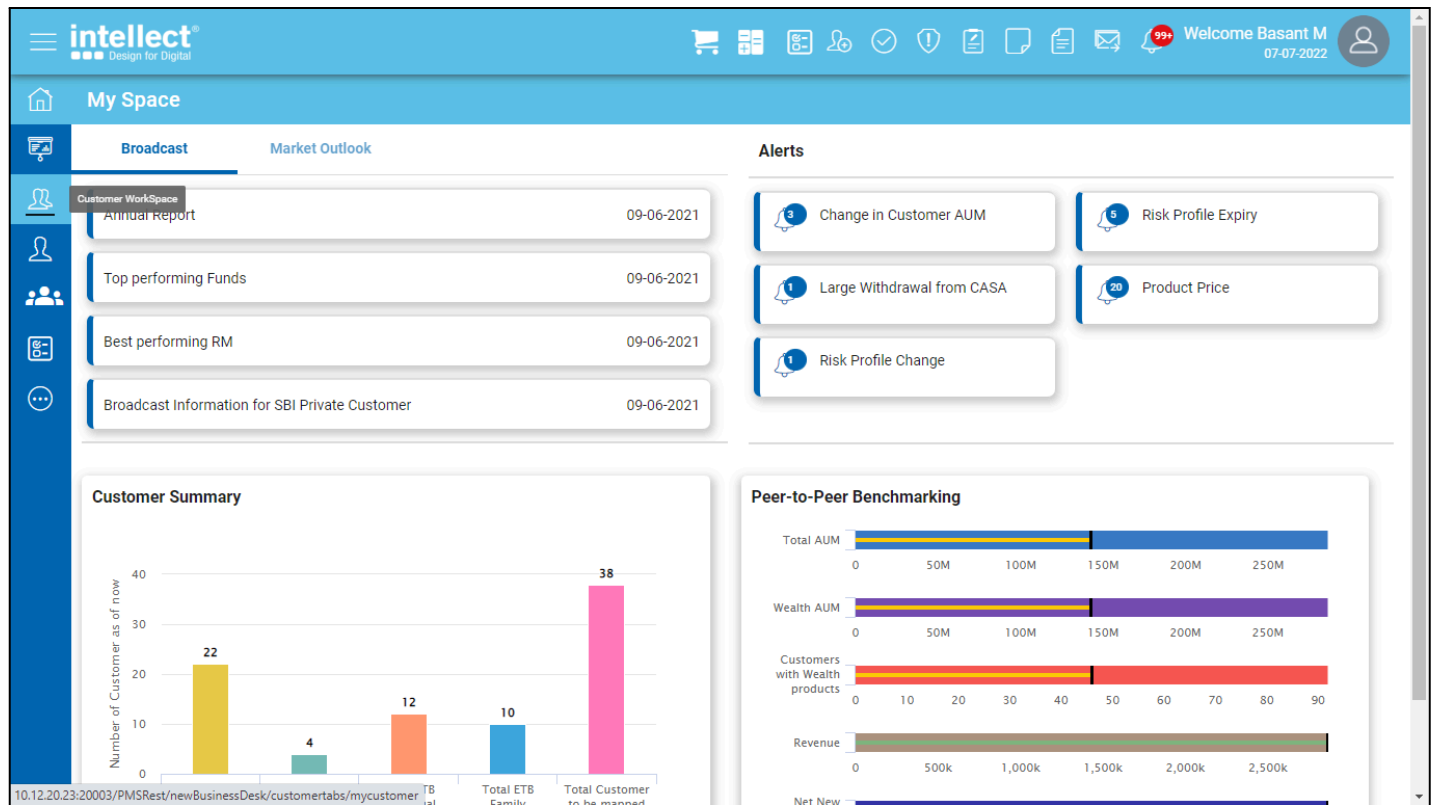

4. The User can also use the following filters to help them search for specific customers:
 - a) Favorite Customer – Filter out customers marked as Favorite customers
 - b) AUM – Filter out customers by their Assets Under Management

- c) Product Type – Filter out customers by the products they hold
- d) HNW – Filter out customers by their HNW status
- e) RM Name – Filter out customers as per RM Name
- f) Sort – Sort customers in ascending or descending orders (by their names alphabetically)

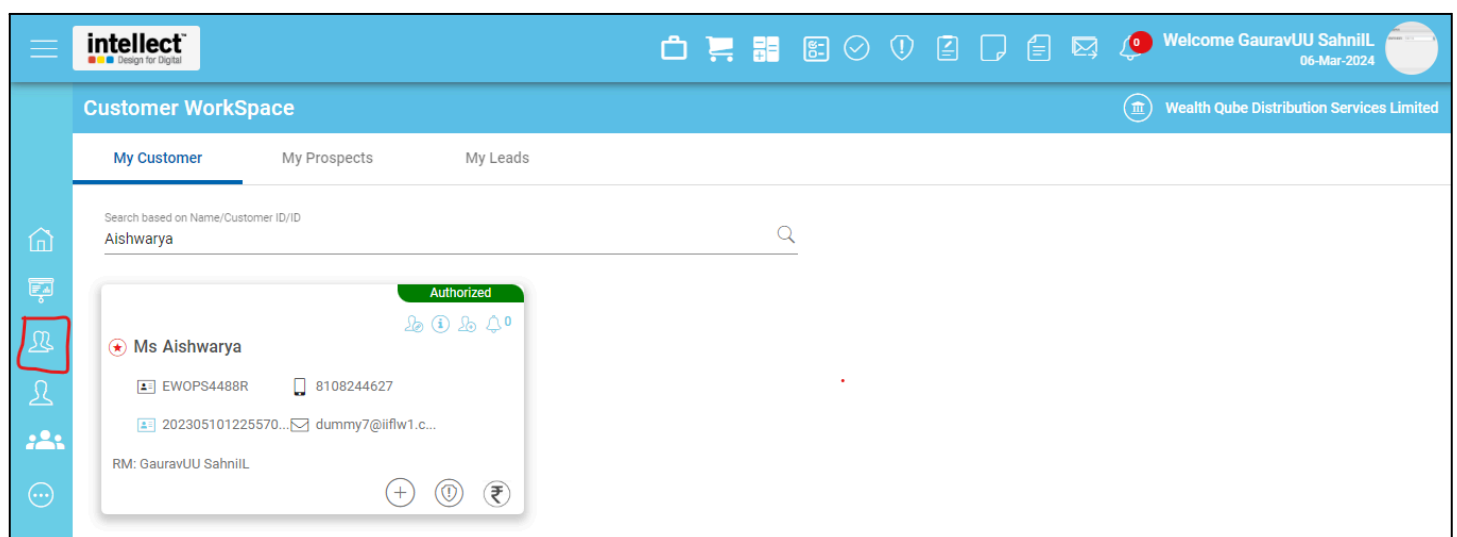

Screen: Customer Filters

5. Alternatively, the User can also view a customer card by clicking on the “Customer Workspace” widget on the left hand panel, and then typing in the customer’s name in the search bar present in the My Customer Tab on the Customer Workspace screen

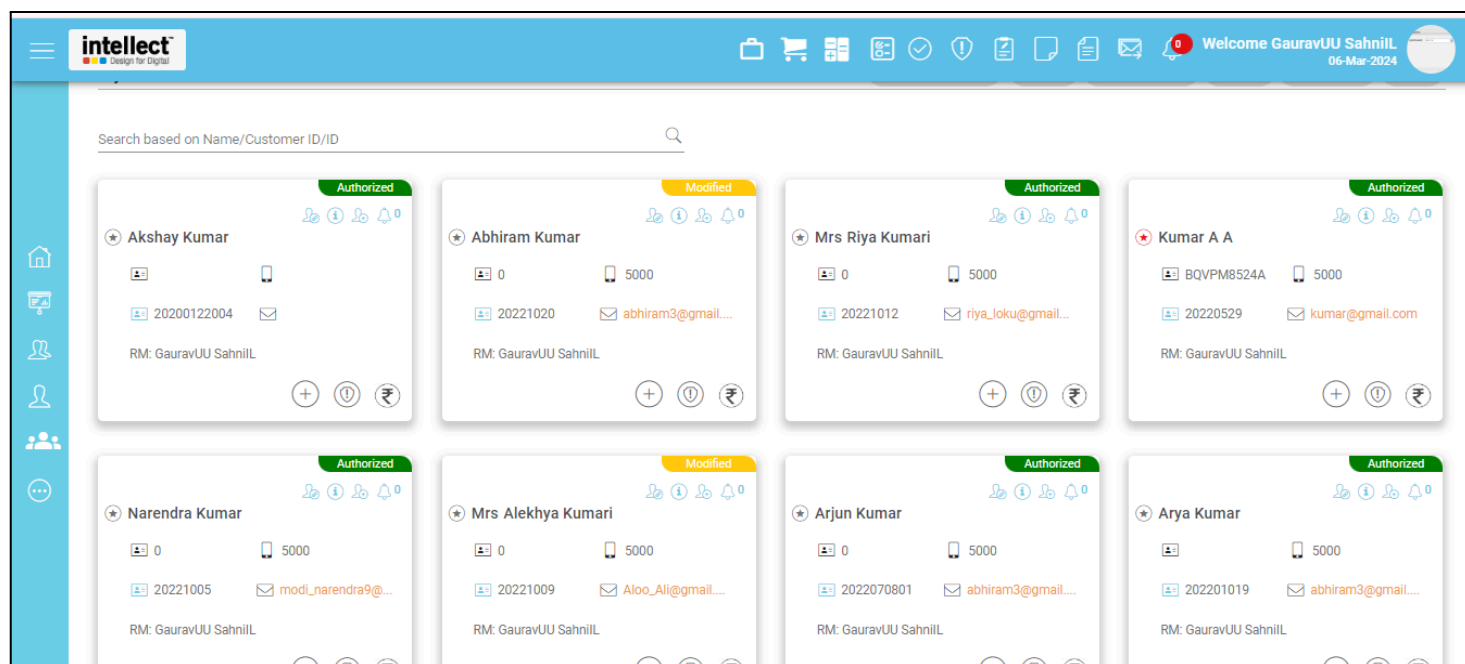

Screen: Click on Customer Workspace

Screen: Search for customer card

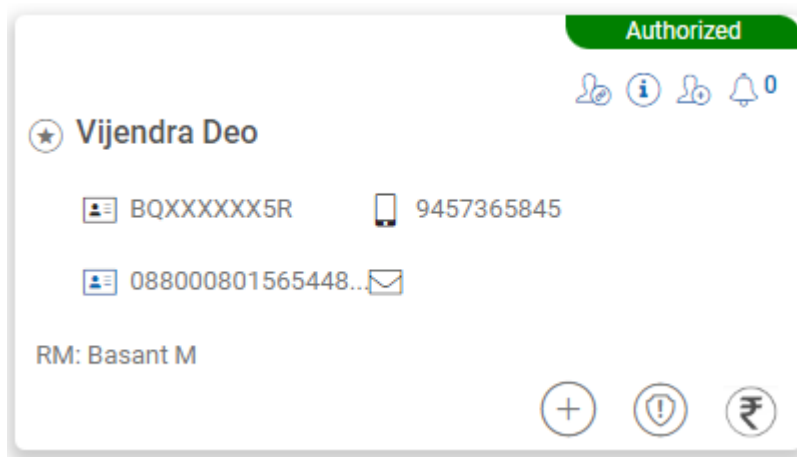

- The User can click anywhere on the customer card (other than on the icons) to view the customer dashboard, customer details, risk profile, holdings and transactions for that customer

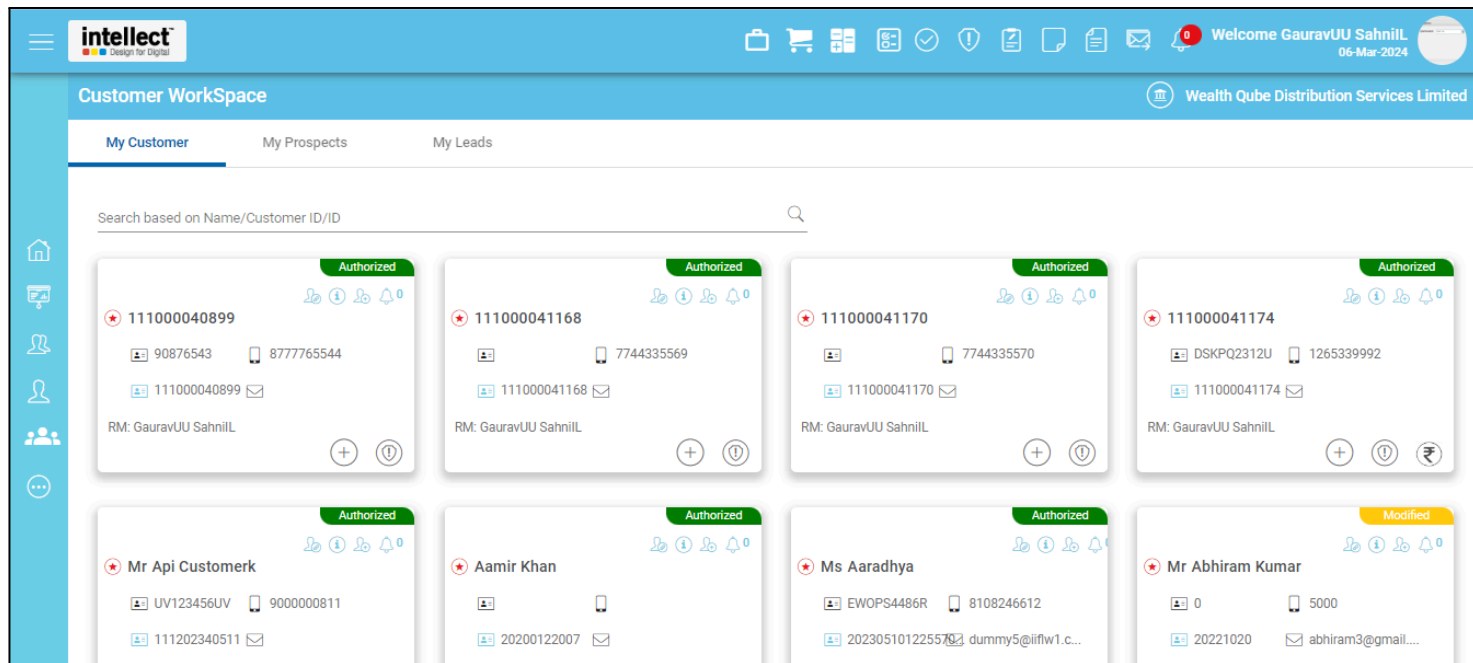

Screen: Click on the Customer Card

4.3. Customer Card

The Customer Card gives the User a quick snapshot about customer details, as well as helps the User to perform specific tasks or navigate to the dashboard to view detailed customer information. There will be additional icons on the card w.r.t. to Goal planning which are covered in financial planning and Goal Journey documents. Please refer the document

1. In addition to displaying the above information, the customer card has the following icons present on it:
 - a. **Favorite Customer** – “★” suggests whether the customer has been marked as a favorite customer by the RM or not. The star icon will not be pre-selected. System does not define any criteria for a customer to be marked as a favorite customer. It is up to RM to decide whether they would like to mark a customer as a favorite customer or not. The RM can select the icon and mark a customer as a favorite customer and the Star icon will be displayed as it is being shown on the customer card. In a similar way upon deselecting the icon, a customer can be unmarked as a favorite customer

4.4. Dashboard

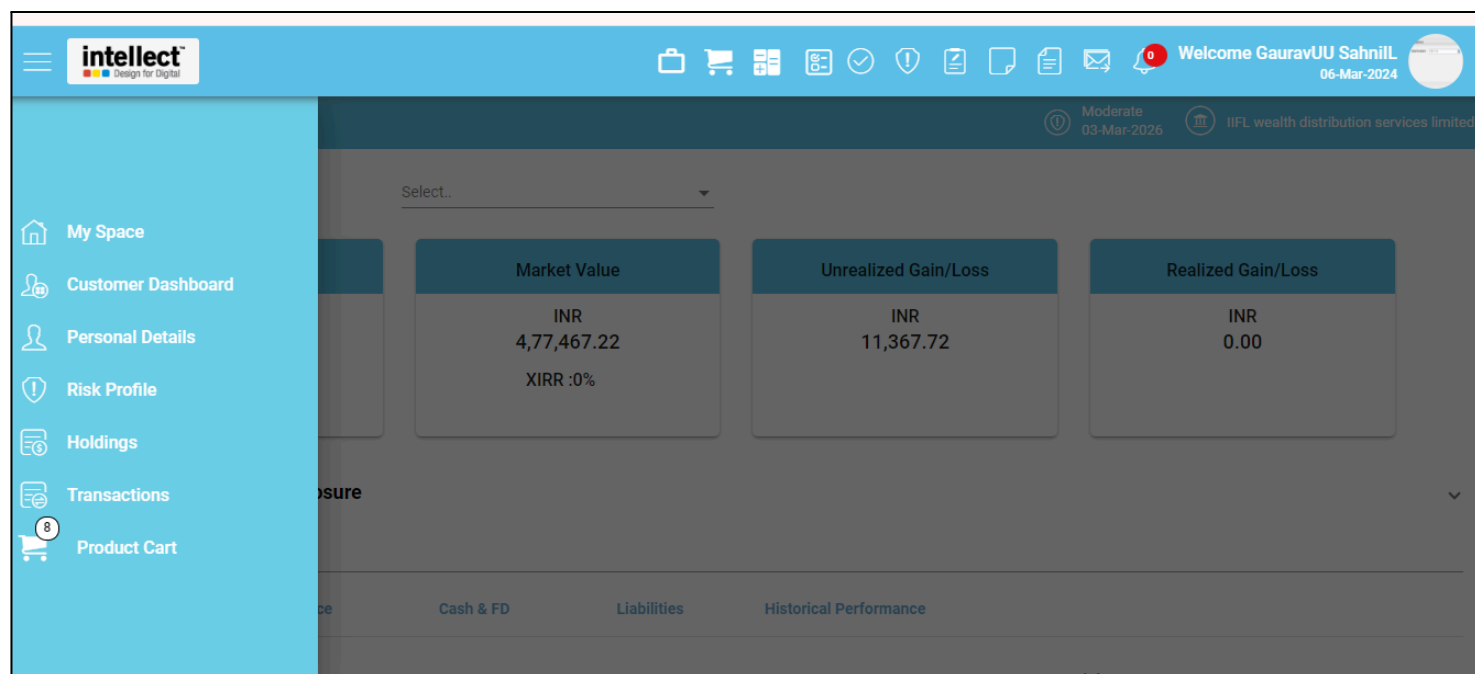

1. The User can click anywhere on the Customer Card to navigate to the Dashboard

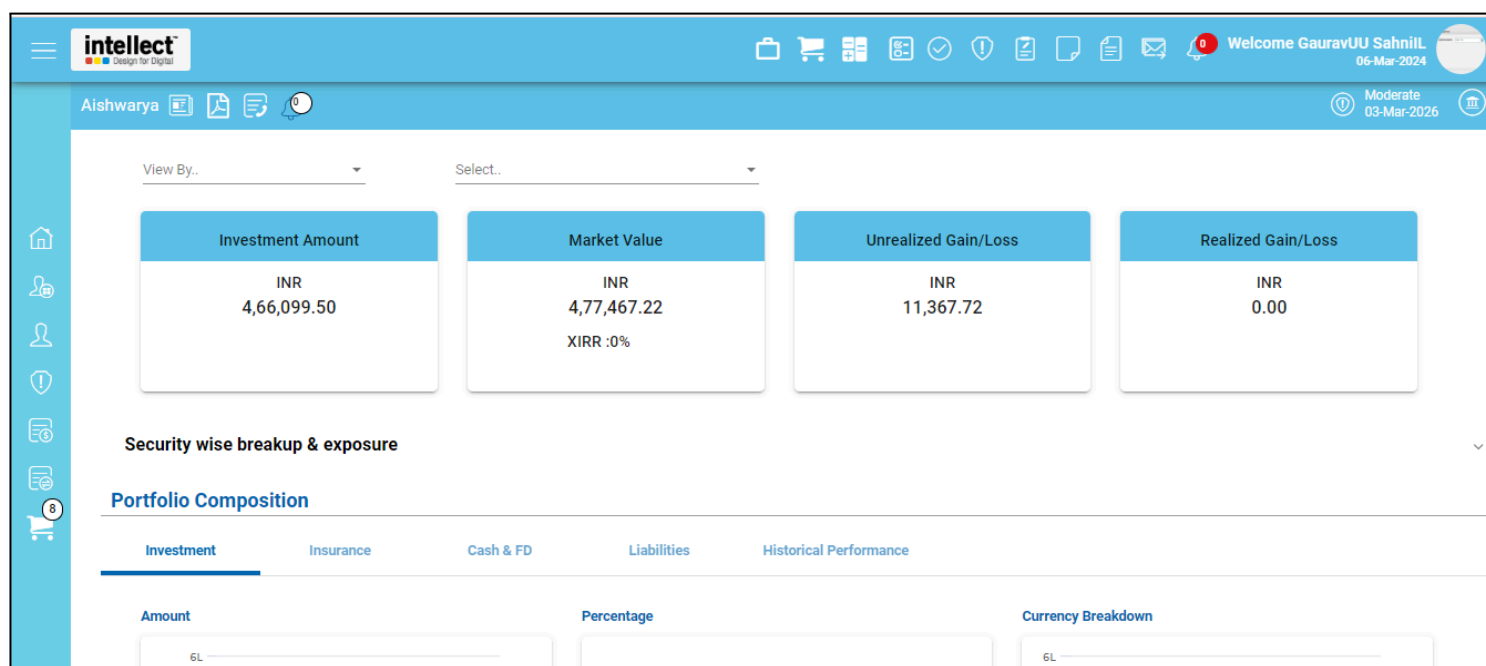

Screen: Click on Customer Card

2. The Dashboard consists of 7 sections:

- a. My Space - This tab will redirect the user to the Home page of RM office
- b. Customer Dashboard – View the customer’s Portfolio Composition
- c. Personal Details – View the customer’s information
- d. Risk Profile – View the customer’s Risk profile
- e. Holdings – View the customer’s holdings information
- f. Transactions – View the customer’s transactions information
- g. Product cart- View the customer’s existing orders (Refer to Order placement document for more details)
- h. Top Panel – View and File Call Reports, View Alerts

Screen: Dashboard Menu

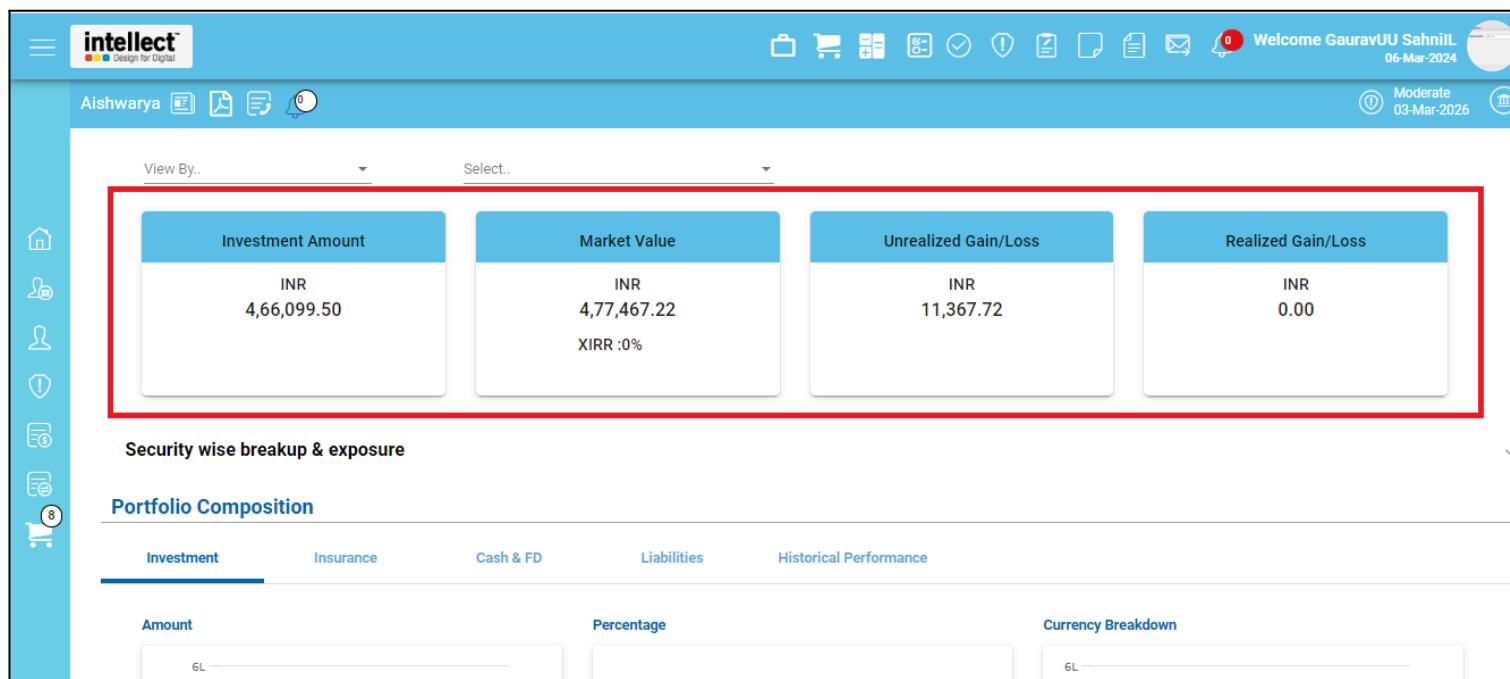

Screen: Customer Dashboard

4.4.1. Customer Dashboard

1. The Customer Dashboard is the default landing screen on clicking on the customer card. Here, the User can view the following customer details:
 - a. **Portfolio Overview Details** - For all the 3 types of Portfolio (All, Internal, External) mentioned above. (Refer section View Held Away asset capture - Holdings and Customer Dashboard for more details)

- i. **Investment Amount:** Investment Amount refers to cumulative cost of investments that the customer currently holds. It aggregates the investment amount of customer's investment holdings
- ii. **Market Value:** This refers to the Market Value of the investments that the customer currently holds. It aggregates the market value of customer's holdings
- iii. **Unrealized Gain/Loss:** Unrealized Gain/Loss is an indicator shown in the application for monitoring the performance of the portfolio. An unrealized gain/loss is an increase/decrease in the value of an asset that has not been sold. It aggregates the unrealized gain/loss of customer's investment holdings
- iv. **Realized Gain/Loss:** Realized Gain/Loss is an indicator shown in the application for monitoring the performance of the portfolio. It results from a "Sell" or "Redemption" transaction (there can be more transactions like coupon & cash dividend, cash interest/profit payment). It aggregates the realized gain/loss of customer's investment holdings
- v. **XIRR** - This displays the XIRR details of the Portfolio at different time period i.e. XIRR Year to Date, XIRR Month to Date, XIRR Quarter to Date, XIRR Half year to Date. The logic to calculate the time period for XIRR is as below
 1. XIRR Year to Date - 1st April of Business Year to (Current Business Date)
 2. XIRR Month to Date - (Current Business Date - 30 Days) to (Current Business Date)
 3. XIRR Quarter to Date - (Current Business Date - 90 Days) to (Current Business Date)
 4. XIRR Half year to Date - (Current Business Date - 180 Days) to (Current Business Date)

The screenshot shows the Intellect application interface. At the top, there is a header with the Intellect logo and a welcome message for GauravUU SahniiL. Below the header, there is a navigation bar with various icons. The main content area is titled "Portfolio Overview Details" and contains a summary of investment metrics. The metrics are displayed in a table with four columns: Investment Amount, Market Value, Unrealized Gain/Loss, and Realized Gain/Loss. The values are as follows:

Investment Amount	Market Value	Unrealized Gain/Loss	Realized Gain/Loss
INR 4,66,099.50	INR 4,77,467.22 XIRR :0%	INR 11,367.72	INR 0.00

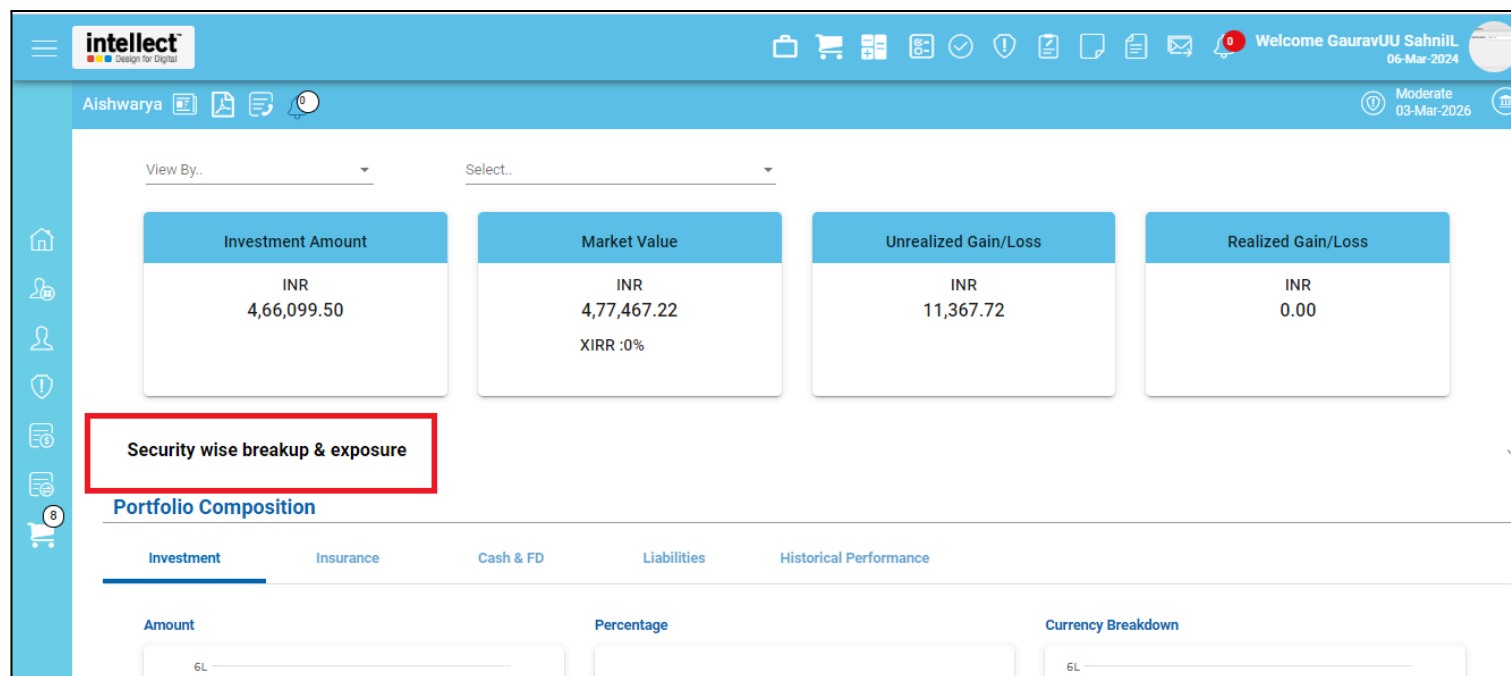

Below the summary, there is a section titled "Security wise breakup & exposure" and a "Portfolio Composition" section. The Portfolio Composition section has tabs for Investment, Insurance, Cash & FD, Liabilities, and Historical Performance. The Investment tab is currently selected, showing a breakdown of the portfolio by Amount, Percentage, and Currency Breakdown.

Screen: Overview Details

b. Security wise breakup & exposure

This displays the exposure of the customer's Mutual Fund and Equity Portfolio exposure in different securities. The top 15 securities exposure is displayed in this widget

1. User clicks on the "Security wise breakup & exposure" to view the widget

Screen: Security wise breakup and exposure Navigation

2. User views the exposure of the Mutual Funds and Equities market value in different securities
3. Data source file will be used to generate the security wise decomposition for a particular fund

Screen: Security wise breakup and exposure Details

4.4.1.1. Portfolio Composition

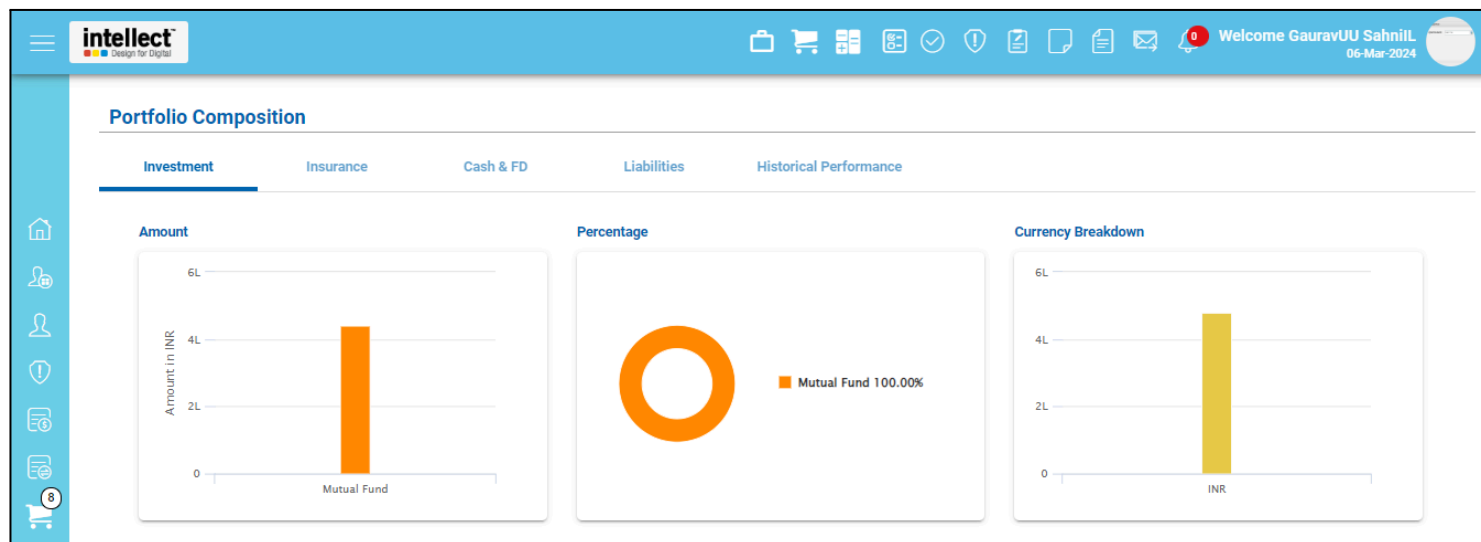

The Portfolio Composition tab covers the below details related to the customer holdings

1. Investment – Amount, Percentage, Currency Breakdown, Holdings and Transactions

2. Insurance – Amount, Percentage and Holdings
3. Cash – Amount, Percentage and Holdings
4. Liabilities – Amount, Percentage and Holdings
5. Historical Performance

Priority	Description			

Screen: Non – Critical Alerts

- The User can change the status of the alert by clicking on “Pending” on the top right side of the alert

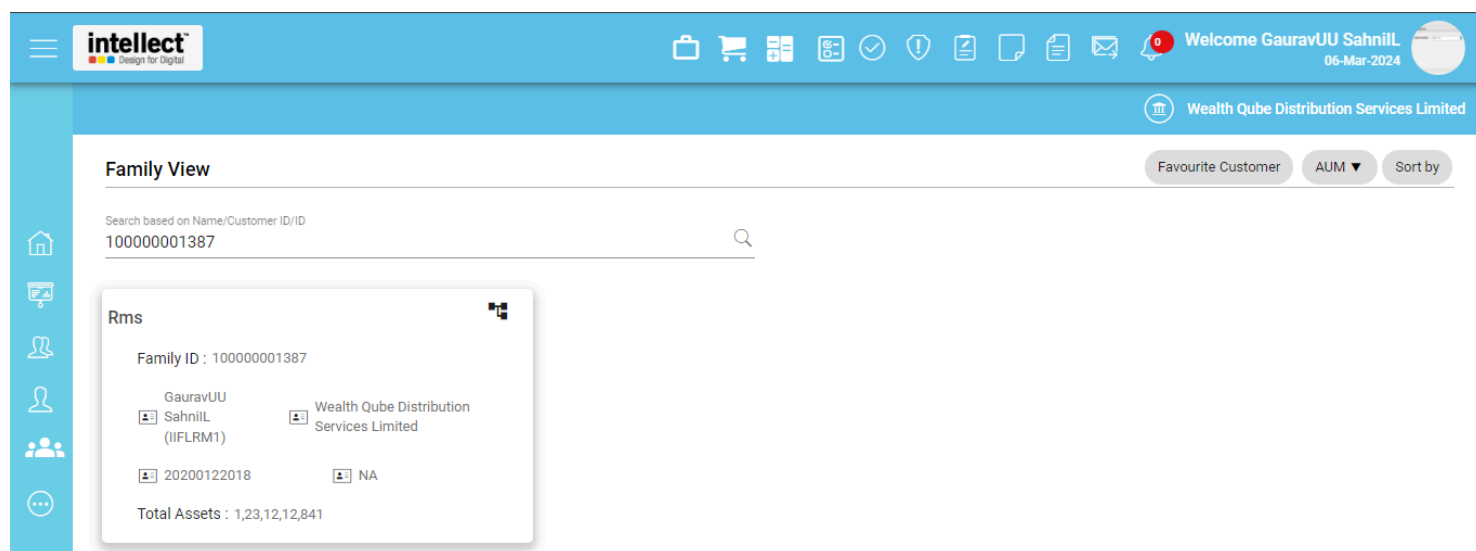

Screen: Change Alert status

4.5. Family View

Family View provides the consolidated portfolio view by grouping Customers in the system. This grouping is generally done for the customers of the same family to have the consolidated view of the family in the “Family View”

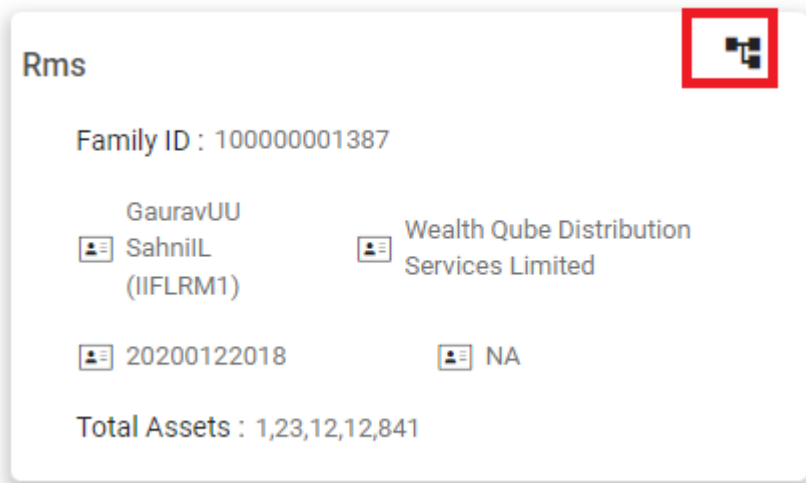

- Customer clicks on the “” icon on the left navigation panel to view the Family cards
- User can see the Family cards (Family Cards) in this section. The Family card displays the following details:
 - Family Description : Description of the Customer Group
 - Family ID. : Unique Identity for the Customer Group
 - RM Name and RM ID : RM Name and ID mapped to the customers present in the grouping
 - Master Cust ID : Master Customer Identification Number (One Customer will be the master in the group)
 - Total Assets :Total Assets of the Master Customer in the group

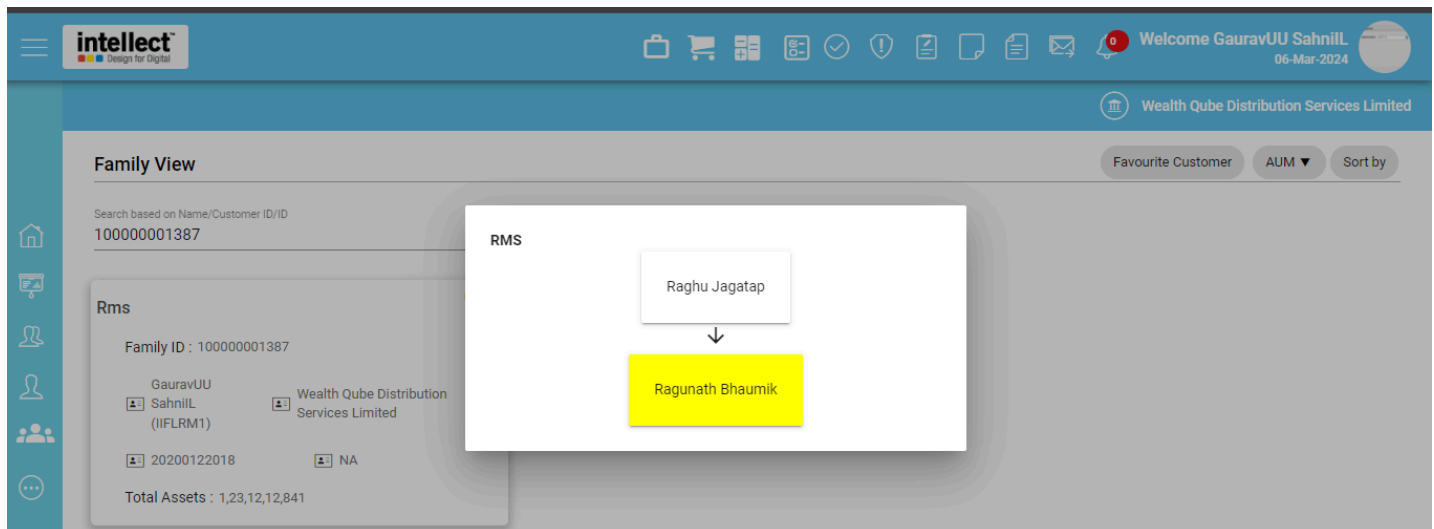

Screen: Family View

- User clicks on the “” button to view all the customers present in the group. The master customer is highlighted in

Yellow

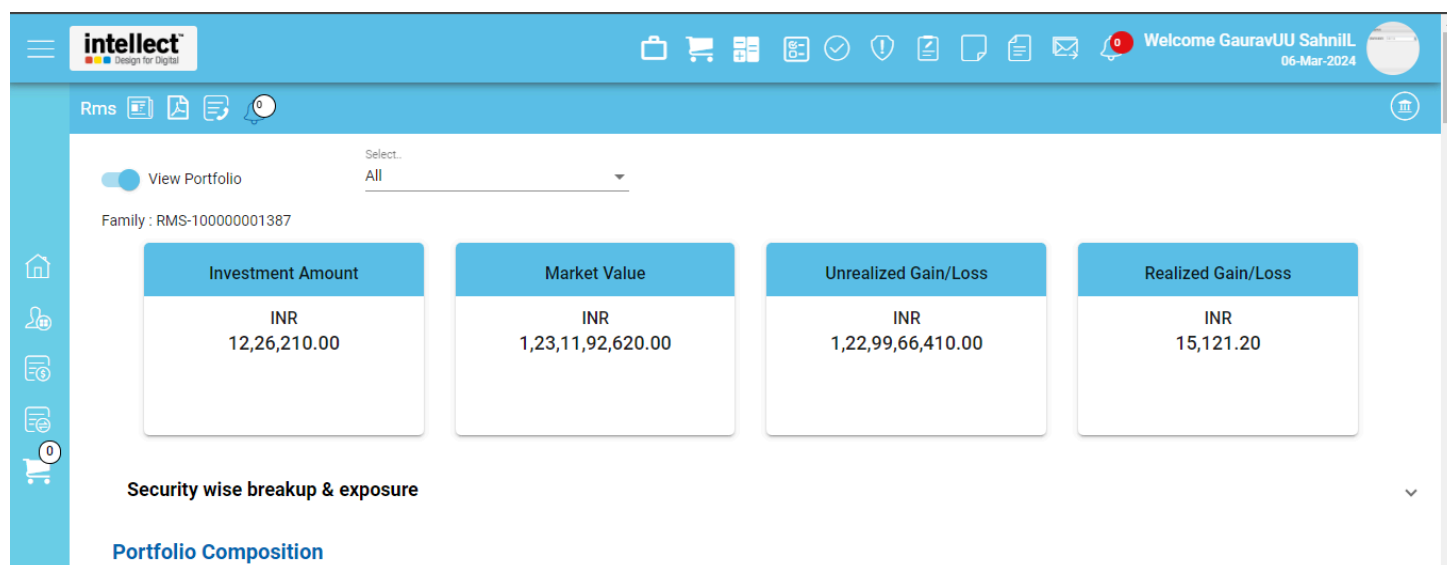

Screen: View Customers of the Group

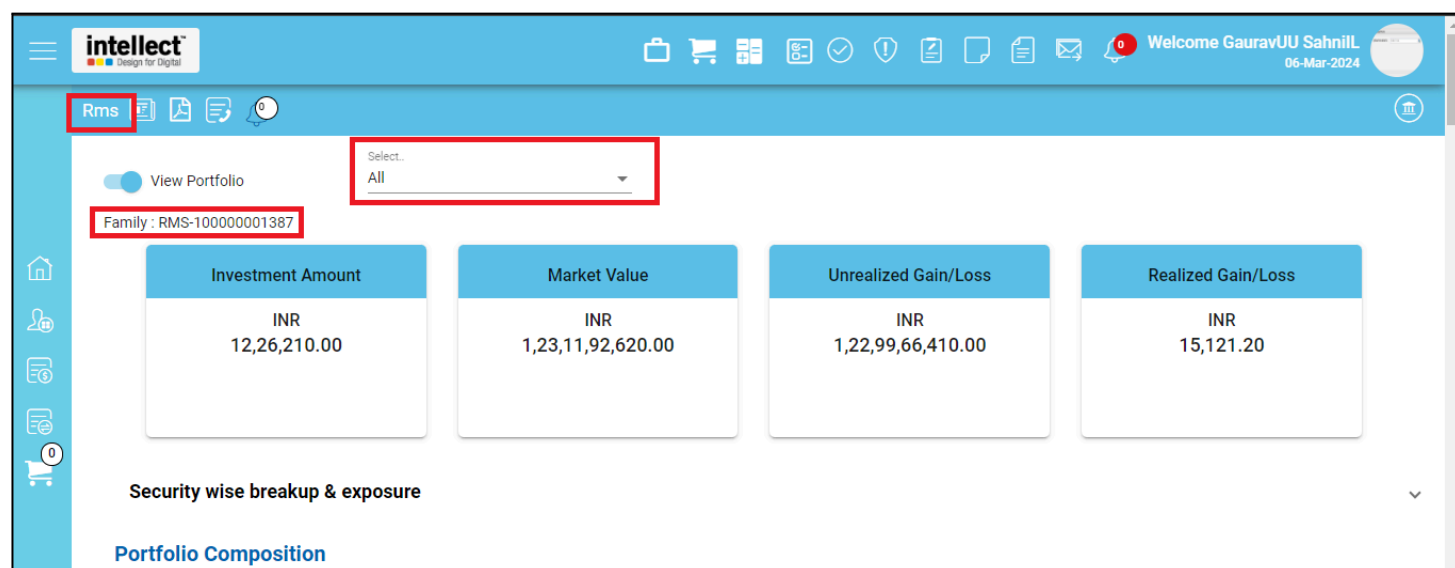

Screen: View Customers of the Group

4. User clicks on the Family Card to view the portfolio composition of the Customer Group by default

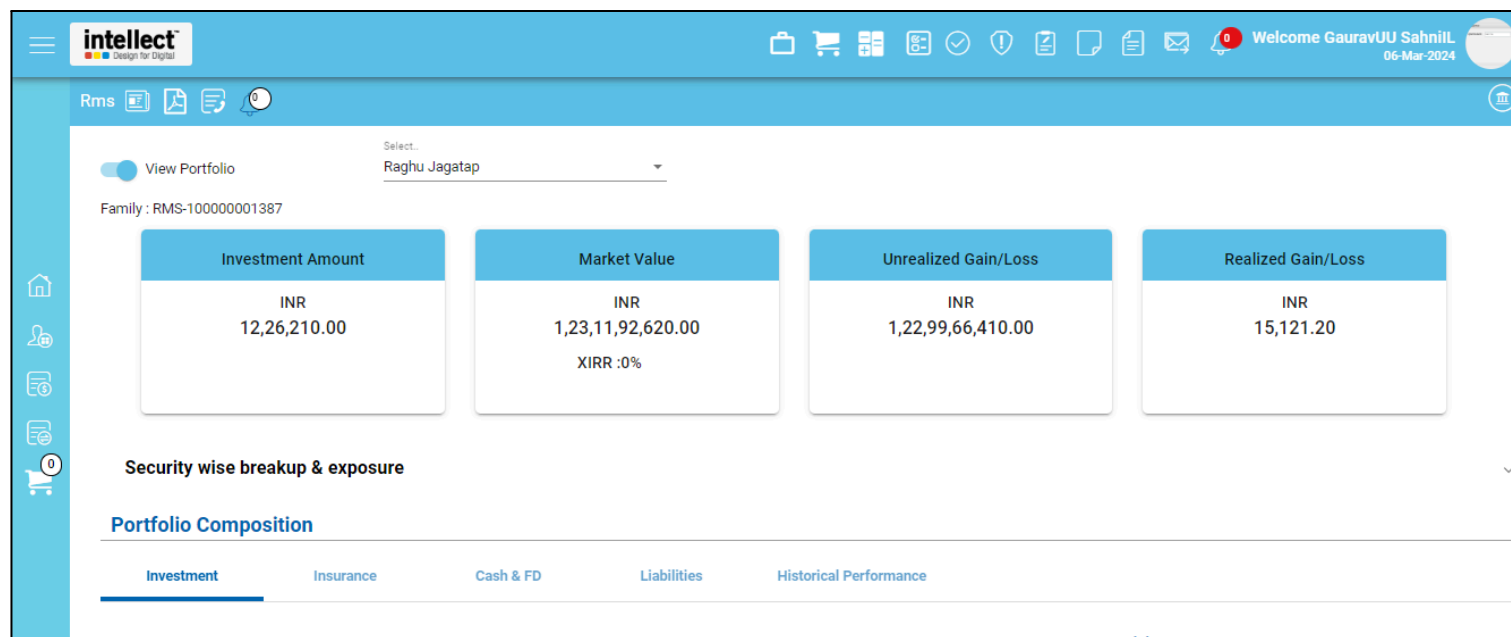

Screen: Customer Group Portfolio Composition

- System provides the "Portfolio View" filter for the user to select the entire customer group (All) or specific customer of the group to view the portfolio composition details. The Family Description is displayed at the right corner and Family Name is displayed below the "View Portfolio Filter"

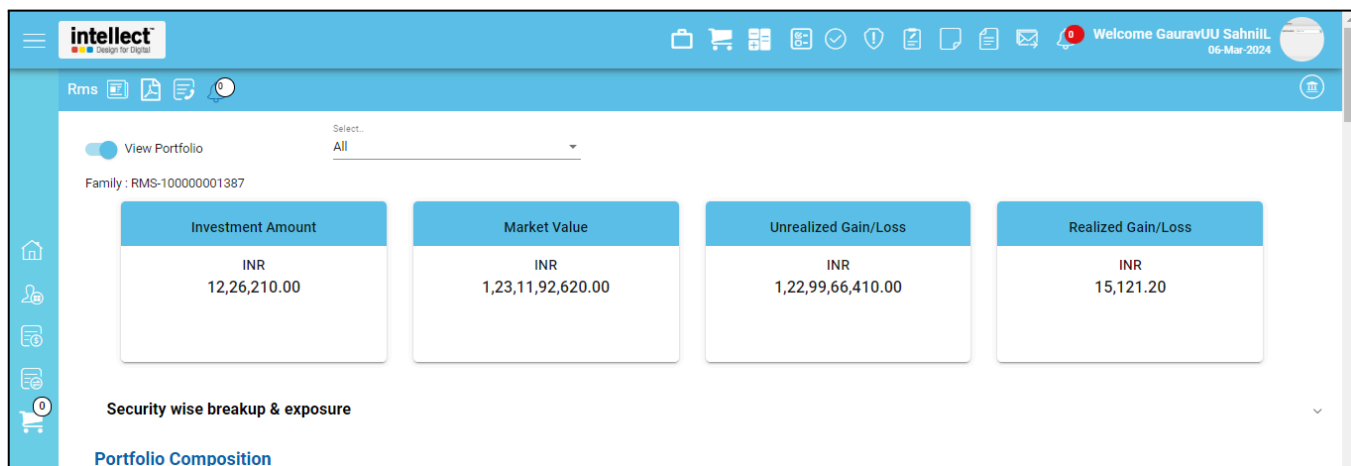

Screen: Portfolio Filter

- User clicks on the Portfolio Filter to change from the default view (All) to select the specific customer to view the portfolio composition. Customer Name and System generated Portfolio Number for the Customer would be displayed in the dropdown. If a specific customer is selected, the portfolio composition of the specific customer will be displayed. If the "All" is selected, aggregated portfolio composition of all the customers in the group will be displayed

Screen: Select Portfolio Filter

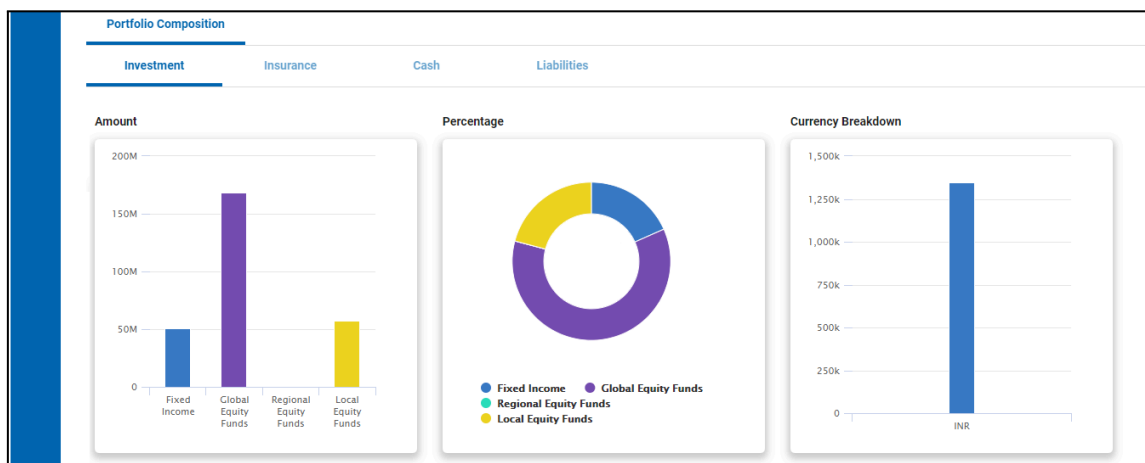

7. System displays the aggregated investment portfolio details of all the customers present in the group (or) for specific customer based on the filter selected in some of the below sections:
 - a. Investment Amount – It aggregates the investment amount of customer holdings as per the filter selected
 - b. Market Value - It aggregates the market value of customer holdings as per the filter selected
 - c. Unrealized Gain/Loss - It aggregates the unrealized gain/loss of customer holdings as per the filter selected
 - d. Realized Gain/Loss - It aggregates the realized gain/loss of customer group holdings as per the filter selected

Screen: Family View – Portfolio Composition

- e. Amount - This bar graph displays the composition of customer group investment holdings by asset class market value. Asset Classes are plotted on the x-axis; Market Value Amount for the respective asset class is plotted on the y-axis. In the same way like Investment Portfolio, this logic applies for Insurance, Cash and Liabilities Portfolio
- f. Percentage - This pie graph displays the composition of customer group investment holdings by asset class percentage. Market Value Percentage for the respective asset class is plotted on the pie graph. In the same way like Investment Portfolio, this logic applies for Insurance, Cash and Liabilities Portfolio

- g. Currency - This bar graph displays the composition of customer group investment holdings by currency (Market Value in the respective currency). Currencies are plotted on the x-axis; Market Value Amount for the respective Currency is plotted on the y-axis

Screen: Family View – Portfolio Composition (Amount, Percentage and Currency Breakdown)

- h. Holdings - The Holdings details of the customer are displayed in this section as per the filter selected. They are grouped by Asset Class. In the same way like Investment Portfolio, this logic applies for Insurance, Cash and Liabilities Portfolio
- i. Transactions - The transaction details of the customer are displayed in this section as per the filter selected. They are grouped by Asset Class

16	Held away At	Displays Held away At details for the holding	Display	No	String	Not Applicable	List of Institutions	Expanded View
PMS Holdings (Asset, Product view)								
1	Scheme name	Displays the scheme Name	Display	No	String	Not Applicable	Not Applicable	Collapsed view
2	Folio no./Account Number	Displays the Account Number through which the Investment was made	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View

3	Market Value	Displays the Market Value in the Currency of the Security	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed view
4	Market Value (Branch CCY-INR)	Displays the Market Value of the Holdings in the Local Currency	Display	No	Numeric	Not Applicable	Not Applicable	Expanded view
5	Investment Amount	Displays the Investment Amount in Security Currency	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed View
6	Unrealized Gain/Loss	Displays the Unrealized Gain/Loss of the PMS in the Security Currency	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
7	Realized Gain/Loss	Displays the Gain/Loss that has been realized on the PMS in the Security Currency	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View

8	Folio/Account Number	Displays the Account Number/ Folio number through which the Investment was made	Display	No	String	Not Applicable	Not Applicable	Expanded View
9	Currency	Displays the Currency of the PMS	Display	No	String	Not Applicable	INR	Expanded View
10	Contract ID	Displays the Contract ID of the holding	Display	No	String	Not Applicable	Not Applicable	Expanded View
11	Sub Asset	Displays the Sub Asset Type of the Security	Display	No	String	Not Applicable	List of Sub Asset Classes	Expanded View
12	Sub Product	Displays the Sub Product of the Security	Display	No	String	Not Applicable	List of sub products	Expanded View
13	Product category	Display the Product category of the Security	Display	No	Character	Not Applicable	List of Product categories	Expanded View
14	Portfolio type	Displays type of portfolio - Investment or Held away. . Investment refers to Portfolio held with HSBC	Display	No	String	Not Applicable	1. Investment 2. Held away	Expanded View
15	Held away At	Displays Held away At details for the holding	Display	No	String	Not Applicable	List of Institutions	Expanded View

AIF Holdings View (Asset, Product view)								
1	Product Name	Displays the Name of the AIF	Display	No	String	Not Applicable	Not Applicable	Collapsed view
2	Investment Amount	Displays the Investment Amount in Security Currency	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed view
3	Market Value	Displays the Market Value in the Currency of the Security	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed view
4	Fx Rate	Displays the Fx Rate which is Sec CCY to Book CCY	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed view
5	Units	Displays the AIF Unit balance. If unitized is unitized it will display Units, else it will be blank	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
6	Market Value (Branch CCY-INR)	Displays the Market Value of the Holdings in the Local Currency	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View

7	Unrealized Gain/Loss	Displays the Unrealized Gain/Loss of the AIF in the Security Currency	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
8	Realized Gain/Loss	Displays the Gain/Loss that has been realized on the AIF Holding in the Security Currency	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
9	Weighted Average Cost	Displays the Weighted Average Cost of the AIF in the Security Currency. If the AIF is unitized it will display Weighted Average Cost, else it will be blank	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View

10	Current NAV	Displays the Net Asset Value in the Security Currency. If the AIF is unitized it will display NAV, else it will be blank	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
11	Holder	Displays if the customer is primary or secondary holder	Display	No	Character	Not Applicable	1. Primary 2. Secondary	Expanded View
12	Sub Asset	Displays the Sub Asset Type of the Security	Display	No	String	Not Applicable	List of Sub Asset Classes	Expanded View
13	Sub Product	Displays the Sub Product of the Security	Display	No	String	Not Applicable	List of sub products	Expanded View
14	Product category	Display the Product category of the Security	Display	No	Character	Not Applicable	List of Product categories	Expanded View
15	Currency	Displays the Currency of the AIF	Display	No	Character	Not Applicable	INR	Expanded View

16	Portfolio type	Displays type of portfolio - Investment or Held away. . Investment refers to Portfolio held with HSBC	Display	No	String	Not Applicable	1. Investment 2. Held away	Expanded View
17	Held away At	Displays Held away At details for the holding	Display	No	String	Not Applicable		List of Institutions
Cash Holdings								
CASA Holdings (Asset and Product view)								
1	Account Number	Displays the Account Number	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed view
2	Product Name	Displays the Name of the Cash Account	Display	No	String	Not Applicable	Not Applicable	Collapsed view
3	Sub Product	Displays the Sub Product of the Security	Display	No	String	Not Applicable	List of sub products	Expanded View
4	Balance	Displays the Balance of the Cash Holding	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
Fixed Deposit Holdings (Asset and Product view)								
1	Account Number	Displays the Account Number	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed view
2	Product Name	Displays the Name of the Fixed Deposit	Display	No	String	Not Applicable	Not Applicable	Collapsed view

3	Sub Product	Displays the Sub Product of the Security	Display	No	String	Not Applicable	List of sub products	Expanded View
4	Principal	Displays the Principal Amount of the Fixed Deposit	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
6	Maturity Date	Displays the Maturity Date of the Fixed Deposit	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
7	Interest Rate	Displays the Interest Rate of the Fixed Deposit	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
8	Maturity Value	Displays the Maturity Value of the Fixed Deposit	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
Loan Holdings (Product view) (Not Applicable)								
1	Start Date	Displays the Start Date of the Liability	Display	No	String	Not Applicable	Not Applicable	Collapsed View
2	Amount	Displays Liability Amount	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed View
3	Maturity Date	Displays the Maturity Date of the Liability	Display	No	String	Not Applicable	Not Applicable	Collapsed View
4	Rate Of Interest	Displays the Rate of Interest for the Liability	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed View

5	Product Type	Displays the Product Type	Display	No	String	Not Applicable	Not Applicable	Collapsed View
Transactions View								
1	As of Date	Inputs the date as of which the User wants to view the Transactions	Input	Yes	String	Yes	Not Applicable	
2	Search based on Account number/Folio number- Asset	Inputs the Account number/Folio number and Information displayed is as per Asset class	Input	Yes	Numeric	No	Not Applicable	
3	Search based on Account number/Folio number- Product	Inputs the Account number/Folio number and Information displayed is as per Product	Input	Yes	Numeric	No	Not Applicable	
4	From	Inputs the From Date for which the User wants to view the Transactions	Input	Yes	String	No	Not Applicable	

5	To	Inputs the To Date till which the User wants to view the Transactions	Input	Yes	String	No	Not Applicable	
Mutual Fund Transactions (Asset and Product view)								
1	Product Name	Displays the Name of the Mutual Fund	Display	No	String	Not Applicable	Not Applicable	Collapsed View
2	Folio no./Account Number	Displays the Account Number through which the Investment was made	Display	No	Numeric	Not Applicable	Not Applicable	Collapsed view
3	Transaction Type	Displays the Transaction Type	Display	No	String	Not Applicable	Not Applicable	Collapsed View
4	Transaction Amount	Displays the transaction amount	Display	No	String	Not Applicable	Not Applicable	Collapsed View
5	Transaction ID	Displays the transaction ID of the transaction	Display	No	String	Not Applicable	Not Applicable	Expanded View
6	Transfer Flag	Displays type of transfer of the transaction 1. ARN Transfer In 2. ARN Transfer Out	Display	No	String	Not Applicable	Not Applicable	Expanded View

		3. -- (Not Applicable)						
7	Transaction Date	Displays the transaction date of the transaction	Display	No	String	Not Applicable	Not Applicable	Expanded View
8	Transaction Amount (Branch CCY - INR)	Displays the transaction amount in Local Currency	Display	No	String	Not Applicable	Not Applicable	Expanded View
9	Investment Units	Displays the Number of Units	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View

14	Sub Product	Displays the Sub Product of the Mutual Fund	Display	No	String	Not Applicable	Not Applicable	Expanded View
15	Product Category	Displays the Product Category of the Mutual Fund	Display	No	String	Not Applicable	Not Applicable	Expanded View
16	Currency	Displays the Currency of the Mutual Fund	Display	No	Character	Not Applicable	Not Applicable	Expanded View
17	User Transaction Number	Displays the transaction number of the transaction	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
18	Original Transaction Number	Displays the transaction number sent to RTA	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
19	Security Transaction tax	Displays the STT charged on the transaction	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
20	Entry/Exit Load	Displays the entry or exit load on the transaction	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View

21	Transaction Charges	Displays the transaction charges on the transaction	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
22	TDS Amount	Displays the TDS applicable	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
23	Stamp Duty Charges	Displays the stamp duty on the transaction	Display	No	Numeric	Not Applicable	Not Applicable	Expanded View
Bond Transactions (Asset and Product view)								
Held Away Capture (Mutual Fund)								
Sno	Field Name	Field Description	Editable	Data Type	Mandatory	List of Values	Validation	Purpose/Remarks
1	Account Number	Displays the default held away account for the customer	Default fetch	No	No	Not Applicable		Account Number
2	Product Code	Displays the type of Held away asset which can be captured	Select	Yes	Yes	1. Mutual Funds 2. Deposits 3. Direct Equity 4. Bonds		Product Code
2	Security Name	Selects the fund name invested in	Select	No	Yes	Only Mutual fund names will be displayed as selected product code is "Mutual Funds"		Security Name

3	Market Value Date	Selects the current market value date from the calendar By default Market Value date will be the business date	Input	No	Yes	Not Applicable		Market Value Date
4	Invested Amount	Inputs the investment amount. (Acquisition cost)	Numeri c	Yes	Yes	Not applicable		Invested Amount
5	Quantity	Inputs the units bought of the fund. This can be manually entered/edited . If the market value date and Market value are captured then this field will be automatically calculated.	Numeri c	Yes	Yes	Not Applicable		Quantity

6	Market Value	Inputs the market value of the Investment	Numeri c	Yes	Yes	Not Applicable		Market Value
7	Held away at	Selects the bank/broker where held away is held at. To capture the portfolio where it is held at. If the portfolio is held at Bank or broker apart from the LOV then others will be selected	Drop down	Yes	Yes	List of Institutions		Held away at
Held Away Capture (Direct Equity)								
1	Account Number	Displays the default held away account for the customer	Default fetch	No	No	Not Applicable		Account Number
2	Product Code	Displays the type of Held away asset which can be captured	Select	Yes	Yes	1. Mutual Funds 2. Deposits 3. Direct Equity 4. Bonds		Product Code

2	Security Name	Selects the Stock name invested in	Select	No	Yes	Only stock fund names will be displayed as selected product code is "Direct Equity"		Security Name
3	Market Value Date	Selects the current market value date from the calendar By default Market Value date will be the business date	Input	No	Yes	Not Applicable		Market Value Date
4	Invested Amount	Inputs the investment amount. (Acquisition cost)	Numeri c	Yes	Yes	Not applicable		Invested Amount
5	Quantity	Input the units bought of the stock	Numeri c	Yes	Yes	Not Applicable		Quantity
6	Market Value	Input the market value of the Investment	Numeri c	Yes	Yes	Not Applicable		Market Value

7	Held away at	Selects the bank/broker where held away is held at. To capture the portfolio where it is held at. If the portfolio is held at Bank or broker apart from the LOV then others will be selected	Drop down	Yes	Yes	List of Institutions		Held away at
Held Away Capture (Bonds)								
S.no	Field name	Field Description	Editable	Data type	Mandatory	List of Values	Business Validation	Purpose/Remarks
1	Account Number	Displays the default held away account for the customer	Default fetch	No	No	Not Applicable		Account Number
2	Product Code	Display the type of Held away asset which can be captured	Select	Yes	Yes	1. Mutual Funds 2. Deposits 3. Direct Equity 4. Bonds		Product Code

2	Security Name	Selects the Bond name invested in	Select	No	Yes	Only Bond names will be displayed as selected product code is "Bond"		Security Name
3	Market Value Date	Selects the current market value date from the calendar By default Market Value date will be the business date	Input	No	Yes	Not Applicable		Market Value Date
4	Invested Amount	Inputs the investment amount. (Acquisition cost)	Numeri c	Yes	Yes	Not applicable		Invested Amount
5	Nominals	Input the Nominals bought of the Bond	Numeri c	Yes	Yes	Not Applicable		Nominals
6	Market Value	Input the market value of the Investment	Numeri c	Yes	Yes	Not Applicable		Market Value

7	Held away at	Selects the bank/broker where held away is held at. To capture the portfolio where it is held at. If the portfolio is held at Bank or broker apart from the LOV then others will be selected	Drop down	Yes	Yes	List of Institutions		Held away at
Held Away Capture (Deposits)								
S.no	Field name	Field Description	Editable	Data Type	Mandatory	List of Values	Business Validation	Purpose/Remarks
1	Invested Amount	Inputs the investment amount. (Acquisition cost)	Numeric	Yes	Yes	Not applicable		Invested Amount
2	Market Value Date	Selects the current market value date from the calendar By default Market Value date will be the business date	Input	No	Yes	Not Applicable		Market Value Date

3	Account Number	Displays the default held away account for the customer	Default fetch	No	No	Not Applicable		Account Number
4	Held away at	Selects the bank/broker where held away is held at. To capture the portfolio where it is held at. If the portfolio is held at Bank or broker apart from the LOV then others will be selected	Drop down	Yes	Yes	List of Institutions		Held away at
5	Security Name	Selects the Deposit name invested in	Select	No	Yes	To be maintained in Security maintenance example- NRE FD, CASA, FCNR US, FCNR EUR, FCNR GBP etc.		Security Name

6. Validations

1. Mandatory Field Verification - The system will validate whether the entire mandatory fields with * mark are filled in by the user or not
2. Mapping of customer in a family from different RM's is not allowed
3. System has a hard stop if the customer is a part of any other family.

7. Actors/Entitlements

1. RM
2. Supervisor

8. Annexure
